

# Product Safety Recall

## WELDING INDUSTRIES OF AUSTRALIA WIA WELDMATIC 190

Part number complete package: **CP131-0**

Part number power supply only: **CP131-2**

Serial numbers starting with:

**C1312A1110...**, **C1312A0111...**, **C1312A0311...** & **C1312A0411...**

Some of **C1312A0611...** and some of **C1312A0711...**

### DEFECT

Due to a manufacturing assembly process error, side ventilation louvres could pierce wires from the welding transformer.

### HAZARD

Under certain circumstances the metal case could become electrically live, posing a risk of electric shock.

### WHAT TO DO

Stop using the welding machine. Contact WIA to confirm serial numbers and arrange inspection and repair at no cost to the customer.
