

A Clear Cut Difference

High Performing Consumables

- ✓ CAN LAST UP TO 3 TIMES LONGER
- ✓ EASY TO USE ✓ BETTER ARC STARTS

Centerfire's range of contact tips, nozzles and diffusers are easy to use, high performing and provide better arc starts, less spatter and more consistent welds. Plus they can last up to 3 times longer than other brands and lower quality copy consumables.

The Advantage

POLISHED ALUMINIUM ARMOUR

- 35% thicker than previous brass necks for increased durability.

HANDLE

- Multiple lightweight and comfortable options.
- Ventilated to reduce heat and increase operator comfort.

NECK

- Fixed, rotatable and multiple length options improve operator comfort.
- Rotatable necks changeover without tools.

TRIGGER

- Easy to change, and designed and built to last more than 1 million cycles.

JUMP LINER

- Replaces only the most commonly worn liner area.
- Minimises inventory and downtime for changeover.
- Reduces the amount of time a gun goes off-line.

DIFFUSER

- Works with the nozzle to smooth and concentrate shielding gas flow for less oxidation and contamination.

NOZZLES

- Smooths out and stabilises gas flow for a much more consistent precise arc.
- Reduces weld oxidation and contamination.

CONTACT TIPS

- Stays in place by hand tightening, allowing for quicker changeover.
- Can be rotated 360° to create new wear surfaces.
- Locks in place for better weld consistency.

LINERS

- 100% tested to ensure the smoothest wire feed in the industry.
- Proprietary in-house coiling process improves wire feed performance.

Premium Quality Consumables

POLISHED ALUMINIUM ARMOUR

- > 35% thicker than previous brass necks for increased durability.

CONTACT TIPS

- > Stays in place by hand tightening, allowing for quicker changeover.
- > Can be rotated 360° to create new wear surfaces.
- > Locks in place for better weld consistency.

NOZZLES

- > Smooths out and stabilises gas flow for a much more consistent precise arc.
- > Reduces weld oxidation and contamination.

HANDLE

- > Multiple lightweight and comfortable options.
- > Ventilated to reduce heat and increase operator comfort.

NECK

- > Fixed, rotatable and multiple length options improve operator comfort.
- > Rotatable necks changeover without tools.

TRIGGER

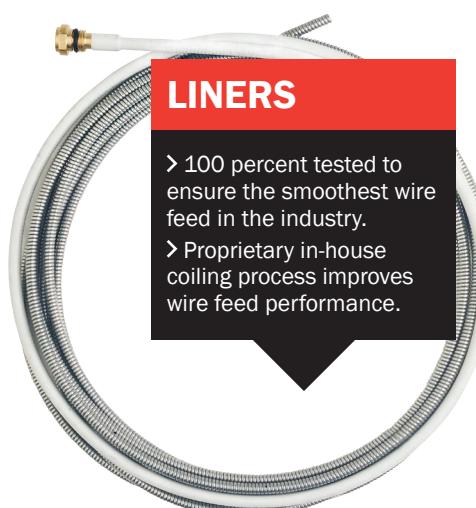

- > Easy to change and designed and built to last more than 1 million cycles.

STRAIN RELIEF

- > Rigid strain relief increases durability.

LINERS

- > 100 percent tested to ensure the smoothest wire feed in the industry.
- > Proprietary in-house coiling process improves wire feed performance.

JUMP LINER

- > Replaces only the most commonly worn liner area.
- > Minimises inventory and downtime for changeover.
- > Reduces the amount of time a gun goes off-line.
