Big Blue® 700X Duo Pro with ArcReach Technology
Part No: MR907762-1 [Dual VRD]

Dual Operator.
Engine Driven with 3 Phase Power.

GAME-CHANGING TECHNOLOGIES CAN STOP YOU FROM WASTING HOURS EVERY DAY.
ArcReach welding technology minimises the non-value-added time spent walking to and from the power source - and maximises arc-on time, weld quality and job site safety.

APPLICATIONS
Pipe Welding
Maintenance & Repair Rigs
Mechanical Contractor
Construction
Mining Maintenance
Railroad Maintenance

PROCESSES
Stick (SMAW)
MIG (GMAW)
Flux-Cored (FCAW)
RMD*
Pulsed MIG* (GMAW-P)
DC TIG (GTAW)
Air Carbon Arc (CAC-A) (9.5mm)

*With optional ArcReach Smart Feeder.
Big Blue® 700X Duo Pro with ArcReach Technology
Part No: MR907762-1 [Dual VRD]

THE PROFESSIONAL WELDER’S CHOICE.

MORE POWER
700 Amps of weld power and 20,000 watts of continuous generator power.

MULTI-ARC WELDING
> One dependable engine – two independent arcs with up to 400 Amps each. Or plug in an additional inverter for a true multi operator work platform!

> Example: An additional XMT multi-process machine allows 3 operators, up to 200 Amps each. Premium quality arcs allow operators to work independently with no arc interaction. Multi operator welding has never been easier or more versatile.

AUTO REMOTE SENSE™
Standard 14-pin receptacle. For simple connection of remote controls and wire feeders.

HD POWDER COAT
With zinc-rich primer protects sheet metal from rust and corrosion.

INCREASED EFFICIENCY
> More arcs and better fuel economy equal increased profits for your business.
> Estimated savings are 34 percent with a dual-operator unit versus two single operator units.

DIGITAL METERS
SunVision technology enables welding parameters to be viewed with greater clarity than analogue meters at virtually any angle. Meters can be seen clearly even in direct sunlight.

INDUSTRIAL USB PORT
Quickly upload the latest software and download machine log files to retrieve in-depth information such as diagnostics and machine statistics.

AUXILIARY POWER*
20 kW 3 Phase:
> 1 x 415-380 V 32 Amp Sockets
> RCD Protected
4 kW 1 Phase:
> 2 x 240 V 15 Amp Sockets.
> RCD protected.
Plenty of Auxiliary power for operating onsite equipment at the job, or an extra welding machine e.g. XMT 350.

ARC CONTROL
Beneficial when welding with stick and solid wires for easier fine tuning of tough-to-weld materials and out-of-position applications.

SIMPLE PARALLELING SWITCH
Makes switching from a single operator to dual operators a breeze. Weld up to 400 Amps per side when set up in dual-operator mode, or up to 700 Amps in single-operator mode.

HEAVY-DUTY LOW SPEED T4I INDUSTRIAL DIESEL ENGINES

*Generator auxiliary power is 60Hz, and intended for operating equipment associated with welding, such as angle grinders, drills and floodlights. Some Australian 50Hz equipment incorporating induction motors, such as pumps, fans, air compressors, refrigeration or air conditioners, may not operate correctly and could be damaged. Refer to appliance supplier or manufacturer to confirm suitability.
**Big Blue® 700X Duo Pro** with **ArcReach™ Technology**

**Part No: MR907762-1 [Dual VRD]**

**MORE ARC-ON TIME & REDUCED EXPOSURE TO WORKPLACE HAZARDS**
Less time is spent going back to the welding power supply to set process and arc amperage or voltage.

**AUTO-PROCESS SELECT™**
Depending on connected accessory, the system automatically changes to stick or MIG/FCAW (with gas) if electrode positive polarity is detected or TIG or FCAW (no gas) if electrode negative polarity is detected, when ArcReach communication is established between the accessory and the Big Blue — reducing the need to access the power supply.

**LESS OPERATOR FATIGUE**
Operators no longer need to move or reposition heavy secondary weld leads bundled with control cords on the job site because control cables are not used.

**AUTOMATIC RETURN TO PANEL SETTINGS**
System automatically returns to Big Blue setting when ArcReach communication is terminated. For example, if the Big Blue is set to gouging at 500 Amps and an ArcReach feeder is connected, the Big Blue will go to a MIG/FCAW process. If the feeder is disconnected, the Big Blue will go back to its previous setting (gouging at 500 Amps).

**MORE WELDS IN LESS TIME**
 Operators can precisely set arc amperage or voltage.

**OPERATORS CAN PRECISELY SET ARC AMPERAGE OR VOLTAGE**
Operators can set the Amperage and voltage at the weld joint and monitor the actual arc voltage and current delivered to the weld using the digital meters on the accessory. This removes guesswork when it comes to adhering to weld procedures.

**REMOTE OVERRIDE OF BIG BLUE**
When an ArcReach accessory is connected to a Big Blue the accessory has full control and the Big Blue controls are disabled. While under ArcReach control, process and voltage/amperage adjustments are locked out, preventing accidental changes by personnel other than the welding operator.

**MORE WELDS IN LESS TIME**
Operators can set the Amperage and voltage at the weld joint and monitor the actual arc voltage and current delivered to the weld using the digital meters on the accessory. This removes guesswork when it comes to adhering to weld procedures.

**REMOTE OVERRIDE OF BIG BLUE**
When an ArcReach accessory is connected to a Big Blue the accessory has full control and the Big Blue controls are disabled. While under ArcReach control, process and voltage/amperage adjustments are locked out, preventing accidental changes by personnel other than the welding operator.
ARCREACH SUITCASE 12 FEATURES

SETTING THE STANDARD FOR PERFORMANCE
Heavy-duty drive motor with tachometer control provides wire feed speed that is accurate and consistent from the start of the weld to the finish and from one weld to the next, which provides consistent arc quality. Front panel has trigger hold, wire jog, and gas purge for easy operator access. Wide voltage range for small and large wires with no contactor chatter or arc outages.

SET VOLTS & WIRE SPEED FEED REMOTELY
The simple interface on the feeder allows operators to adjust parameters at the point of use with no control cords.

EASY SOLUTION FOR TRADITIONAL WIRE PROCESS
Add the flux-cored capability of the Big Blue 700X for fill and cap passes for increase productivity.

DURABLE DESIGN REDUCES DOWNTIME
Impact-resistant case and the elimination of feeder control cords provides a solid solution to last in harsh environments.

ARCREACH SMART FEEDER FEATURES

ARCREACH SMART FEEDER DELIVERS EXCELLENT RMD & PULSED MIG WELDING
Up to 60 metres away from the power source with no control cords - twice the distance previously possible. RMD and pulsed MIG processes also help reduce weld failures and eliminate backing gas on some stainless and chrome-moly applications.

EASY PROCESS CHANGEOVER
Simply connect the ArcReach SuitCase feeder to your weld lead and you are ready to go. The power source automatically switches settings to run conventional wire processes.

SYNERGIC PROCESSES
RMD and pulsed MIG welding permits procedures with one wire and one gas to eliminate process switch-over time.

DURABLE DESIGN REDUCES DOWNTIME
Impact-resistant case and the elimination of feeder control cords provides a solid solution to last in harsh environments.

ARCREACH STICK/TIG REMOTE

COMPLETE REMOTE CONTROL
Portable and lightweight, the ArcReach® Stick/TIG Remote paired with an Big Blue 700X power source allows you to change weld settings at your work area, saving a trip to the power supply. No extra control cord to purchase, maintain, string or unstring — saving time and money.

* Meets NEMA and IEC ratings.  **VRD voltage for Stick & Sense voltage for Lift-Arc TIG.  ***Will operate either 60Hz or 50/60Hz power tools, lights, etc.
## ORDERING INFORMATION - AVAILABLE BASE PACKAGES

### OPTION 1 - MIG/FLUX-CORED SYSTEM

**POWER SOURCE**
- MR907762-1 Big Blue 700X Duo Pro with ArcReach Technology

**WIREFEEDER (ALTERNATIVE WIREFEEDERS LISTED BELOW)**
- MR301456 ArcReach Suitcase 12

**REQUIRED ACCESSORIES**
- Interconnecting lead kit for this option is not supplied by WIA
- BEQ4015AH8EMC Bernard 440 Amp MIG gun with rotatable long 45 deg. neck, 4.6m cable, 1.2 tip
- HA801AR Argon regulator & flow gauge
- MR190300 0.9 / 1.2 mm "V" groove roll kit for solid wires
- MR079607 1.2 mm knurled "V" groove roll kit for flux-cored wires
- MR079609 1.6 mm knurled “V” groove roll kit for flux-cored wires

### OPTION 2 - RMD PULSE SYSTEM

**POWER SOURCE**
- MR907762-1 Big Blue 700X Duo Pro with ArcReach Technology

**WIREFEEDER (ALTERNATIVE WIREFEEDERS LISTED BELOW)**
- MR301177 FieldPro Smart Feeder (Dinse) CE

**REQUIRED ACCESSORIES**
- Interconnecting lead kit (is not supplied by WIA) 2 X weld cable dinse to dinse & dinse work lead
- BEQ4010AR8EMC Bernard 400 Amp MIG gun with fixed medium 45 deg. neck, 3.0m cable, 1.2 tip
- HA801AR Argon regulator & flow gauge
- MR190300 0.9 / 1.2 mm "V" groove roll kit for solid wires
- MR079607 1.2 mm knurled “V” groove roll kit for flux-cored wires

### OPTION 3 - MIG/FLUX-CORED SYSTEM

**POWER SOURCE**
- MR907762-1 Big Blue 700X Duo Pro with ArcReach Technology

**WIREFEEDER (ALTERNATIVE WIREFEEDERS LISTED BELOW)**
- MR301499 20 Series wirefeeder - standard

**REQUIRED ACCESSORIES**
- Interconnecting lead kit with earth leads - 10m dinse
- AM294-0/10 Interconnecting lead kit with earth leads - 10m dinse
- BEQ4015AH8EMC Bernard 440 Amp MIG gun with rotatable long 45 deg. neck, 4.6m cable, 1.2 tip
- HA801AR Argon regulator & flow gauge
- MR190300 0.9 / 1.2 mm "V" groove roll kit for solid wires

**OPTIONAL ACCESSORIES**
- MR242211020 RHC-14 remote hand current control
- MR300430 Wireless hand control & 14 pin receiver
- MR300429 Wireless foot control & 14 pin receiver
- MR301325 ArcReach Stick/TIG Remote
- BEQ4010AR8EMC 400 Amp MIG gun with fixed medium 45 deg neck 3.0m cable 1.2 tip
